STUDENT CONGRESS

The CAR Students Congress, which runs parallel to the main Congress from 2nd to 4th of November 2011, allows students from all over the world a unique opportunity to participate in an international meeting and present a paper related to automotive transportation and technology.

Students will have their own Technical Sessions and will also be given the opportunity to discuss and elaborate on a case study of a chosen automotive company in a working-session. The themes for the Student Congress are the same as those for the main congress.

To join the Students Congress, applicants must contact their university or their national FISITA member society. Students wishing to present a paper at the congress must send an abstract at car2011@upit.ro. The organisers will select a limited number of students from each country and will give priority to candidates who have submitted an abstract. The best three papers will receive an award. Participation of students is free of charge.
